

Title: Safeguarding Report for 2023

Author: Esther Dickinson

Date: March 2024

This is my last safeguarding report for the APCM as I have recently resigned from the role. The baton needs passing on to someone who has the time to dedicate to the role. I am more than happy to discuss the role with interested parties and to do a handover.

Most of the PCC have completed the required training and have an updated DBS check. The training requirements for PCC members has changed over the years which the PCC have taken on board.

There have been quite a few staff changes within the Diocesan Safeguarding Team but the support they provide has remained unchanged. Besides training, they offer regular sessions where Parish Safeguarding Officers can meet online to discuss the role, ask questions and to get support.

If anyone is interested in learning more about the role with a view to volunteering, please contact me via the Parish Office.
